

SDDC-PP Advisory 17-0106

Date: 23 May 2017

From: AMSSD-PP, Scott AFB, IL 62225

To: All Military Service Headquarters Representatives, Worldwide Personal Property Shipping Offices (PPSOs), Personal Property Processing Offices (PPPOs), and Approved Department of Defense (DoD) Personal Property Transportation Service Providers (TSP)

Subject: Personal Property TSP Installation Access Information via Transportation Facilities Guide (TFG)

1. Limited base-access information is now available for TSPs with the creation of the Carrier Transportation Facilities Guide (TFG) view only role in v18.1 of Global Freight Management (GFM) program. While the TFG is generally specific to the pickup/delivery of freight shipments on each installation, valuable base access information may be made available for TSP who perform pickup/delivery of personal property on installations. In an effort to better service our DoD customers and their families while moving on/off installations, PPPOs/PPSOs are encouraged to work with Installation Transportation Officers (when necessary) to identify installation access requirements within the TFG (General Information section) as they apply to Personal Property TSPs.

2. Personal Property TSPs may gain access to the TFG by logging into their Electronic Transportation Acquisition (ETA) account and then clicking on the "Request Additional Applications" link on the left or the horizontal menu bar. TSPs can select Global Freight Management (GFM) as an additional application and then choose the "Carrier-TFG Only" user role. Refer to the ETA help pages for more information on requesting additional applications or contact the ETA Help Desk.

Note: This access does not preclude installations from implementing random access measures and as such the accuracy of the information available in the TFG will not be considered in Defense Personal Property Program (DP3) decision making. Approved users with the role "Carrier-TFG only" will have view only capability in the TFG.
